Thank goodness, then, for Designers & Dragons: A History of the Roleplaying Game Industry. This first volume of the series covers the 1970s, early days of the RPG scene and it's a glorious if depressing read - glorious in that it's amazing to see how these first firms kicked the whole thing off, their attitude and approach to the fledgling hobby and the almost off-handed way they handled new product.

In 1974, fashion designers tried to change tight fitting, body hugging clothing styles into something a bit looser. Like, a lot looser. The silhouette in 1974 was significantly different in this way. The Big Look (or The Droop, depending on your view), designers hoped, would sending customers back to the stores specifically for dresses.

### **1970s Fashion: Styles, Trends, Pictures & History**

In many ways, the 1970s was a time of both transition and decline. This is especially true with regard to the American automotive industry, which began to struggle under the weight of increasing fuel costs, strict government emission and safety regulations, as well as a deluge of fuel-efficient foreign competitors. While American automakers tried their best at producing small, fuel-efficient ...
