F-150 drivers have reported problems with their transmissions when starting their vehicles, accelerating, or shifting. What Kind of Problems? Many drivers say their F-150 makes a loud "clunking" noise when starting the engine. Others have described the transmission as "slipping," "jerky," or "rough."

Ford F-150 Transmission Problems | Clunking Noise ...

By Pizzaman711 - October 23, 2014. "Slipping" is the sensation that your transmission isn't connected to your engine when you press the accelerator. This happens in manual transmission vehicles when the clutch wears out and loses grip intermittently. The F-150's transmission has been automatic only since 2004, but "slipping" still happens for a number of reasons.
