2020 Ford Expedition Trailer Wiring | etrailer.com

Blue = Brake Output. Yellow = Left Turn/Brake. Green = Right Turn/Brake. Brown = Running Lights. For a new 7-way trailer connector, I recommend using the Pollak Black Plastic, 7-Pole, RV Blade-Style Trailer Socket part # PK12-707E because all you need to do is strip the jacket off the ends of the above wires and then insert them into the back terminals on this connector.

This car is designed not just to travel 1 location to another but also to take heavy loads. This article will be discussing Ford Trailer Plug Wiring Diagram.

Ford Trailer Plug Wiring Diagram | Trailer Wiring Diagram

White is ground, black is power to trailer battery trickle charge, blue is brakes, green is tail/running lights, red is left turn signal and left brake light, brown is right turn signal and right brake light, yellow is aux power/back up lights. This is the general color coding, there are exceptions, white, black, and blue are pretty much always as listed above, sometimes the others vary.

Looking for a wiring diagram for a 2006 Ford Expedition

It appears you are looking for a trailer wiring connection for your 2009 Ford F-150. There are a few different options I recommend depending on your truck wiring. If you have no factory wiring, then you will use the Tekonsha 4-way harness # 18252 with its quick splice connectors and circuit tester to install a 4-way trailer connector.

Ford Replacement OEM Tow Package Wiring ... - e trailer

That's actually the blue wire for the trailer brake. Even though this Expedition didn't have the 'towing package', they still used the same harness for the RV / trailer connector. They simply capped off the brake wire since they only installed the 4-pin plug.
