4 MATHEMATICS FOR  
ECONOMISTS 2.16, 17

a)  $f(x) = \begin{cases} 5\% \cdot 2x & \text{if } x > 0 \\ 0 & \text{if } x = 0 \\ 22x & \text{if } x < 0 \end{cases}$ . As  $x$

converges to 0 both from above and below,  $f(x)$  converges to 0, so the function is  $C^1$ .

See figure. b) This function is not continuous (and thus not differentiable). As  $x$  converges to 0 from

is an important part of the undergraduate stage in education for future economists. It's also useful for graduate students who would like to gain knowledge and skills in an important part of math. It gives students skills for implementation of the mathematical knowledge and expertise to the problems of economics.
