Measuring and Valuing Health Benefits for Economic ...

An intervention provides high value if its health benefits justify its costs. Value is measured in terms of the patient benefits achieved per euro/dollar spent. To be able to assess the value, both costs and benefits must be measured at the patient level . Measuring, valuing, and comparing costs and benefits are defined within the economic evaluation framework.

How to Measure Costs and Benefits of eHealth Interventions ...

The measurement of health utilities, or HRQoL weights, involves first defining health states of interest. The next stage involves valuing these health states, that is, individuals assess different health states and place a value on each of them.
