answers 15.4 hours and 36.5 hours. e. Answers will vary. Possible answer: If the value is already shown in the table or graph, then these representations would be easy to use. If the values are far from those shown in the table or graph, or if you need an exact amount, it is easier to use an equation to get the answer. 1

### **A C E Answers | Investigation 1 - inetTeacher.com**

Answers will vary. Possible answer: Their graphs will continue as a single line. If you extend the graphs past that point, the graphs might not be linear because the girls may travel at a new rate that is different from Tara's and Ingrid's original walking rate. So the graphs may not exhibit a constant rate of change. 4. a. Yes, because in ...
